SILVERLINE

January 25, 1974

Mr. William M. King
Dist. Solid Waste Officer
Minnesota Pollution Control Agency
115 South Vine
Fergus Falls, MN 56537

Dear Mr. King:

I have not previously answered your letter as we are making arrangements to have our acetone waste disposed of by Pollution Control, Inc. in St. Paul. The Clay County Landfill, in reality, does not wish to handle this material.

Keep in mind our manufacturing activities are greatly decreased; consequently, we are only disposing of a maximum of three (3) drums per month. I will keep you informed of our progress.

Yours truly,

SILVERLINE, INC.

Joe Burrow
Vice-President of Operations
